

DELHI URBAN RESILIENCE PROJECT

Improved Resilience of high-risk communities in Delhi

RESULTS

1 Leveraging government and community resources for implementation of community action plans for DRR

2 Enhanced advocacy for city's poor children & youth facing disaster and climate risk

Citizens relate to risk reduction with everyday disasters in immediate environment

Immediate actions on everyday risks prevents larger problem

Empowered citizens have the power to address risks more effectively

Children & youth have an important role as future leaders in building a sustainable and resilient society
